

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... JUN 2 1976

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... JUN 3 1976 under 30300

Nevada Department of Conservation and Natural Resources
The applicant Nevada State Park System

201 South Fall Street, of Carson City,
Street and No. or P.O. Box No. City or Town

Nevada 89710, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Well No. 3
Name of stream, lake or other source.

2. The amount of water applied for is 1.4 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet acre-feet

3. The water to be used for Recreation and Domestic purposes
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: SW 1/4 SW 1/4, Section 33, T 18 N,

R 25 E, MDB&M, or at a point from which the S 1/4 corner of Sec. 32 T 18 N, R 25 E

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,

bears S 73° 11' W, a distance of 3,687 feet.

it should be stated.

6. Place of use See attached sheets
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Well, pump, motor, storage tanks and

distribution system with treatment, if necessary.

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$200,000 each biennium for 10 years
10. Estimated time required to construct works.....10 years, the master plan completion date
11. Estimated time required to complete the application to beneficial use.....10 years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Proposed uses include residence area, shops and general recreation uses primarily in the Silver Springs Beach area.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface.

The total combined annual use under this permit and Permit 30303 shall be limited to 175 acre-feet per year.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.5.....cubic feet per second, but not to exceed.....175 acre-feet annually.

Actual construction work shall begin on or before.....February 15, 1979

Proof of commencement of work shall be filed before.....March 15, 1979

Work must be prosecuted with reasonable diligence and be completed on or before.....February 15, 1980

Proof of completion of work shall be filed before.....March 15, 1980

Application of water to beneficial use shall be made on or before.....February 15, 1982

Proof of the application of water to beneficial use shall be filed on or before.....March 15, 1982

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....MAR 26 1979
Completion of work filed.....JUL 19 1979
Proof of beneficial use filed.....MAR 15 1982
Cultural map filed.....JUN 22 1982
Certificate No. 10026 Issued.....

Remarks (Continued)

9. Water systems will be developed and expanded to meet the requirements of Park Development Program at Lahontan. This development will be in accordance with the Lahontan Reservoir General Recreation Development Plan and will progress at a rate to be determined by the Legislature. At this time, \$1.6 million is available for park development; approximately \$400,000 will be spent on water system development at this time (75-77). Total water system development will cost approximately \$1 million.
10. Work covered in the Lahontan Reservoir General Recreation Development Plan is expected to take 10 years to accomplish. This time, however, is entirely dependent on legislative funding and approval.
12. Proposed uses include park personnel residences, shop and maintenance facilities, park concessions, and general recreation uses. The principal use areas as shown in the General Recreation Development Plan are Churchill County Beach, North Shore Marina and Silver Springs Beach.

Additional planning and design information is available from the State Park System on request.
